No correspondence

No public input

No additions to the agenda

No old business to discuss

There was a discussion about the lack of progress on the plan. It was confirmed that we know climate change is happening. It was stated that resiliency is a key point to the plan.

Peacham uses 2mil KW in one year, we should plan for 4mil with the increased use of electricity in home heating and cars.

There is less risk with decentralized power sources.

We should shoot for a 10 year objective. Our plan will reflect the State Plan goals and objectives.

Allison reviewed the draft outline of the energy plan and the committee commented and made additions. Allison will have a draft plan ready by December 13. Meeting Adjourned at 7:50 PM
