## Minutes

1. Call to order at 9:00am by Peter Craig.
2. Discussion of road drainage with the Agency of Transportation
  - a. The board heard from residents and Jeremy Withers describing the history of water runoff at 458 Bayley Hazen Rd. Withers and Shawna Clifford went over options on both sides of the road. Clifford said that the grade of the hill would require stone lined ditches. Clifford stated the current state of the road meets class 2 road standards. Withers stated he discussed with Kozar about removing the berm and possibly adding a swale. No Action Taken.
  - b. The board moved the meeting to outside the Town Hall to discuss drainage on Church Street. Clifford said that the grade of Church Street would require stone lined ditches if the Town attempts to change anything. The main concern of Church Street was the deposition of road material on adjoining properties. The board is going to research engineering options to add catch basins on the north side of the street to avoid stone lined ditching. No Action Taken
  - c. Both locations had discussions of stone lined ditching. Both locations also had concerns about what ditching would do to the newly installed water system of the Peacham Fire District #1. Both locations had discussions about ledge affecting mitigation efforts.
3. Adjourn
  - a. Richard Browne moved to adjourn at 10:38am, all in favor, meeting adjourned.

Documents provided to the Selectboard and documents discussed at this meeting are available by request to the Town Office.
